Dear Pamela Monroe,

As a native-born, life-long resident of New Hampshire I hope the SEC will reject Northern Pass's certificate.

Any potential jobs will be temporary, and there is no guarantee that NH residents exclusively will receive those jobs. There is no benefit to NH residents: it will not lessen my electric rates. And it will be devastating to our environment and consequently to the local tourist trade, which depends on the beauty of our state.

Eversource and Hydro Quebec have both said they aren't paying for the project which raises the question whether either of the companies have the financial capability to build and operate this \$1.6 billion project. The transmission towers and lines are going to have a horrible effect on the landscape, historic sites, and the environment in New Hampshire. The transmission line also will not serve our state, as it merely passes through New Hampshire.

I hope the committee will reject this project's certificate to prevent it from harming our state.

Thank you.

Sincerely,
Denise Clark
